ABOUT DOMINICA:

Dominica is a small English-speaking island in the West Indies located in the eastern chain, between the French islands of Guadeloupe and Martinique.

With a population of just 70,000, the island is an unspoiled natural wonder with a rich culture and is home to the last of the Kalinagos known as the Carib Indians whose name was given to the Caribbean Sea.

Visitors to Dominica can enjoy a vibrant island, full of invigorating experiences or can simply relax in the spa-like setting of the island.
